We are happy to announce the 7th International Post-graduate Course on Childhood Craniopharyngioma on March 9 and 10, 2023, entitled:

Childhood Craniopharyngioma 2023; exciting times

These are exciting times for all professionals working with Childhood Craniopharyngioma:

The first clinical trials are upcoming. New fundamental models to study the etiology and treatments for craniopharyngioma are being developed. Small but important steps are being made in the treatment for hypothalamic dysfunction.

We are very proud to be able to offer an excellent program with top-level speakers, such as the famous and internationally acknowledged professor Dick Swaab (Netherlands Institute for Brain Research), professor dr Thomas Merchant (St Jude's Research Hospital), professor dr Hermann Müller (Klinikum Oldenburg), Prof Juan Pedro Martinez-Barbera (University College London) and many other excellent colleagues in the field.

Approved for accreditation by EACCME.

Program

Th 9	Fr 10
09-03-2023	
10:30 AM 12:30 PM	Meeting with SIOPe working group craniopharyngioma for members only ● Finished Public
1:30 PM 4:00 PM	Current state of the art on the fundamentals of childhood craniopharyngioma Symposium I
4:30 PM 6:00 PM	New trials for childhood craniopharyngioma Symposium II
6:00 PM 10:00 PM	Dinner and tour Princess Máxima Center
10-03-2023	
8:30 AM 10:00 AM	Challenges in childhood craniopharyngioma; how to improve outcome Symposium III
10:30 AM 12:00 PM	Young delegates: abstracts and cases Symposium IV More information
1:00 PM 2:30 PM	Visual and Physical Outcome, Sleep and Patient needs Symposium V

3:00 PM
5:00 PM

Future Perspectives
Symposium VI

Organization committee
